

Scope and Context

The Sino Iron project is operated by CITIC Pacific Mining Management Pty Ltd (CPM), located at Cape Preston, Western Australia. The project currently consists of mining, processing and exporting magnetite iron ore concentrate with an approved yearly export up to 27.6 million tonnes. The Sino Iron project is supported by ancillary mining operations managed by related business entities and the CPM corporate office located in Perth.

Policy

CPM believes that effective environmental performance is an integral part of well-managed socially responsible operations, whilst creating economic value for our shareholders. We strive for protection of the environment by preventing or mitigating adverse impacts, assisting in the fulfilment of our compliance obligations, enhancing our environmental performance and communicating environmental information.

To achieve these objectives CPM aims to:

- Implement, maintain and continually improve our Environmental Management System.
- Identify our significant environmental aspects and the compliance obligations related to those environmental aspects.
- Communicate our environmental information to interested parties.
- Continually improve the suitability, adequacy and effectiveness of our Environmental Management System to enhance our environmental performance.
- Promote sustainable business practices including energy efficiency and resource waste minimisation;
- Promote an environmentally responsible culture within our organisation and those working for and on behalf of CPM by providing appropriate training, awareness and competency assessments.

All persons involved with the Sino Iron project, including top management, employees and contractors are to be aware of this policy, and be responsible and accountable for how this policy applies to their work. The success of this Environmental Policy depends on commitment from all levels and functions of the organisation, led by top management.
